

NVZ Questions and Answers sheet by Environment Agency

The 'NVZ Questions and answers' (NVZ Q&A) and 'NVZ Fact Sheets' are documents produced by Defra and the Environment Agency to supplement the main 'Guidance for farmers in NVZs'.

The latest version (version 8) of the NVZ Q&A is now available online on the Environment Agency website and includes a new section on the Grassland Derogation. Among the new and updated entries are a number of answers to questions raised about the livestock manure N farm limit. We have also updated 'NVZ Fact Sheet 1: Slurry and dirty water' and 'NVZ Fact Sheet 3: Who is responsible for complying with the NVZ regulations?' in response to the need for further clarification of these important aspects of the NVZ regulations.
